Founder's Message

Hai all.. Salutations!

What we believe, what we think or how we feel has no real worth for others when compared with what we actually do... In social service, Real Contribution alone matters... When we can and when others need, what we wilfully do should be the essence of Volunteering... When ATMA adopted the call of 'Volunteering Transformation', this was the intent... Together we can do much more...

I invite you to be with us.. Volunteer with ATMA..

Love,
C K suresh
